Europe (EU)

Country
Sweden

### BASIC DETAILS

Language
Swedish

**Sector:** Health

**Title (EN):** Public health from a gender perspective, labour market, masculinity, medicalisation and violence against women

**Abstract description (EN):**

This report addresses the need to integrate a gender perspective in the public health work. The authors focus on four main areas namely gender perspective in the labour market with regard to the economic recession which affected Sweden in the 90 ties. The report examines also health, illness and disease from a masculinity perspective. The third chapter discusses exaggerated medicalisation linked to depression and menopause and its impact on women and the last chapter looks at the violence against women in intimate partner relationships

**Title (Original Language):** Folkhälsofrågor ur ett genusperspektiv -arbetsmarknad, maskuliniteter, medikalisering och könsrelaterat våld
