**Sector:** Education  
**Title (EN):** Gender in research as a mark of excellence; training and tool kit

**Abstract description (EN):**

The training introduces the practical tool kit.

It comprises an overall introduction into gender and research and shows how gender is interwoven with all aspects of research. It then examines in pragmatic terms how the gender dimension of research content contributes to excellence in research. It also analyses case studies based on concrete examples drawn from nine specific research fields: health; food, agriculture and biotechnology; nanosciences, materials and new production technologies; energy; environment; transport; socio-economic sciences and humanities; science in society and specific activities of international cooperation.

**Keywords:** gender dimensions, research, science, cooperation
