Title (EN):

State organized and paid programme for early diagnostic of cervical cancer.

Abstract description (EN):

For better treatment results it is important to detect the illness as soon as possible. Therefore since year 2009 programme for early diagnostic of cervical cancer is implemented in Latvia. Every year Health Payment centre from the Population Register selects women, who are 25, 28, 31, 34, 37, 40, 43, 46, 49, 52, 55, 58, 61, 64, 67 years old, and send them invitation letters, where they are asked to visit doctor for test. During 2 years (2009-2010) there are 433 016 invitation letters sent, from them 59 020 (13,6%) responded and visited doctor.
